17/07/2022 13.07.56	I liked everything about this training course.	I learned more about fake news.	As a French teacher I will promote these ideas to my students.	I want to organize activities with my students to promote the importance of this topic.	Very good.	The international group that participated in this course was great and I am grateful that I participated.	It's not necessary.
17/07/2022 13.33.22	I liked the methodologies	The impact of the fake news and how to recognise them	Yes, i know better now how to recognise the fake new and it is easier for me to think about new ideas to block them	Yes, i will use them. I will check better the informations that i receive and i will report a fake news when i see it	Very productive	I think that we have collaborated during all grup activities	
17/07/2022 14.21.45	I liked the methogologies, specifically the fact that we wrote our ideas and then presented them	I learned more about the fake news and how to manage them I learned about the digital gape in my country and how it affects us The different generations and how are they using the social media	I increased my knowledge in the theoretical part of the domaine, i found out new terms	I will be using the information in my private life wirth my parents to help them in better managing the fake news	Very well, but the classes were kept outside and it was way too hot to be comfortable	The people weren't on time for the activities, but I had a great collaboration	
17/07/2022 14.25.52	Yes, I did. I liked the informal way of doing all.	Recognize the fake News, types of generations, ABOUT digital gap	Yes, I do. FOR exemple, digital Gap was new for me and many terms linked to the topic	Yes, I will. Working in the hospitaliy, helps me a lot for all fake News ABOUT domain.	Very well, doing the course outside, was too hot	Yes, I do. No, we had So good people.	
17/07/2022 14.46.26	I liked that it was very interactive and we could express ourselves freeley.	I learned a lot about the fake news and the ways too recognise them when we come across.	Yes. I have now an ideaa about the steps we should take in order to recognize a fake news and that it is very important to rise awareness about this.	Yes. I will present them to my students and I will make some extracurricular activities with them.	It was very good for me. The atmosphere was relaxed.	I hope that I could do that. It would be well if we could develop other projects and meetings on the same subject or on others.	It was all good. Thanks
17/07/2022 14.56.52	All good	Some things	A bit	I don't know	Good	All fine	
17/07/2022 14.59.42	I like everything	How to recognise fake news	Yes i learning how to recongize fake news	I realized in work	Relax and great	yes i collaborated

17/07/2022 15.00.20	Yes, I loved it!	The technics how to spot fake news and how to deal with them.	Yes definitely. I realized how much it is important to learn the techniques to share digital awareness.	Definitely yes! On regularly bases.	Involved, creative and challenged.	Yes mostly I am confident to affirm that we all cooperated with each other and manly with the research of info and study of the cases for the presentations.	
17/07/2022 15.01.23	I liked the way that the project and activities was organized , was really perfect duration of time , working in grupus etc.	I learned for digital skills , social media users , and also how to recogniz fake news	Yes , we learned about rules that we can use to recognize fake news	I wanted to share firstly with my colleagues at work after that with my students when the school will start and of course share all the experience and rules with my friend , or even in social media	These days were perfect for me we learned lot of things	No the gropus , people at the project even we were from others countries cultures we found a common communication way	/
17/07/2022 15.01.45	Yes I liked	I have learn new information about how to rekognize the fake news	I think yes	Yes, I will use the rules	I felt amazing	Yes	No
17/07/2022 15.01.45	I really liked the methodologies used because at first we played games that actually had an implementation in the project. Which i thought was really awesome and very easy to learn this way	I learned alot, especially about fake news. How to recognise them and minimise their existence in the media. Other than that I learned how to appreciate others opinions and how to learn from them too.	Yes i did alot. At first i was ignoring the fake news like they were nothing. Believing in them was an everyday thing. But this experience was eye opening and now i know how to protect myself and my loved ones from such fake news. Because as we know even why they look like pointless words put together, they can create ultimate chaos	Yes i will use these 10 rules in my private life but also at work. Because we are constantly in search form information rather it be for personal reasons or for work. Now i can distinguish fake news from real ones which will evidently help me make better choices in my life but also in the professional career as well.	I felt challenged , and i liked it because it helped me rise to a new level of knowledge and a new point of view in life	I think I collaborated quite alot in this project. Especially with the bullgarian and romanian group. They were really awesome and open minded people, very easy to work with and they made my day much better and interesting. There were no problems whatsoever.	
17/07/2022 15.02.22	Yes, above all teamworking and non formal way of teaching.	How to recognize a fake news and what I can do to be part of the solution to the problem.	Yes, digital literacy.	I will, especially in private life use of social media.	Happy, motivated, inspired.	We collaborated sharing different cultures and different point of views.

17/07/2022 15.02.26	Yes i did like the methodology. I liked the all the activities, how they were structured and the cohesion of the group itself. I didn't like that we didnt have intercultural night	I learned a lot! Even though I had previous knowledge on the topic I still heard a lot of new things. I understood how the current situation is in other countries and how they are dealing with it. I learned new things about the steps that could be taken in order to prevent and raise awarness about the fake news in general.	Yes, i increased first of all my personal knowledge on the topic. Maybe I wasnt aware how spread this issue is and now I think i gained some skills that will help me be more attentive	Yes, for sure. Through my work as a youth worker i will make sure to share my knowledge with others. I will also think 2 when reading any news from now on and will always have the rules on my mind when hearing news. I will also spread them within my personal and professional network of people and organizations.	Relaxed and joyful	Yes, I think I did the best I could. I was involved and contributes with all my knowledge and skills I have.	
17/07/2022 15.03.41	I liked the methodologies. I really like all the project, all the activities (energisers, research, presentations)	I learn many things related with the topic about the fake news. I learn about how to recognise a fake news and how to share my knowledge of this topic to other people because it is really important nowadays. Also, i heard a lot opinions and what is it the situation of the fake news in the other countries.	Yes, first i was aware of the big spreading of the fake news around the world and on the project we learn ways how to share this to other people for not to believe in every news that is written.	Yes, out team will make a anime video with this 10 rules. As a teacher i will share this video to my students.	It is really nice to spend the days with warm and creative people.	It was really easy to collaborate and communicate with the other participants.	
17/07/2022 15.05.33	Yes I liked. For me was a new methodologies and very helpful.	Team working and common rules to recognise and avoid the fake news.	Yes. New knowledge about the fake news.	Yes. All the time and everywhere.	Perfectly.	I don't have any problem with collaboration.	For me the activity was too good and I don't have any suggestions.
17/07/2022 15.06.18	Yes, it was very interactive, nice teamwork and interesting research was made.	I wasn't much aware of how much the fake news are spreading, so I learned how to recognise them and what is a digital gap.	Yes, of course! As I said I learned how I can protect myself and my close ones from the fake news.	All the time! Now that I realised how fast and easy it is to spread fake news, I will warn mu friends and when I do some kind of research in school I will make sure to follow all of the rules.	I felt really productive. We learned and will put our best efforts in decreasing the spread of fake news in the future.	Yes, all the time! That was one of the things I liked the most. Everyone had a different point of view and represented what each country had to say. There were really interesting discussions.	As I said before, I really enjoyed my time on this project, so there is nothing bad that I can say or suggest anything better.

17/07/2022 15.06.19	Yes, I like the Energizer Methodologies that were used. The things I like "less" where the dynamism, I wanted more active things.	I have learn a lot. I would say now I'm able to recognize a fake news which is very important.	Yes, definitely. I did not have previous knowledge about the repercussions of fake news and social media in all generations.	Yes. Using the them now and on from today. I will used them at school and with my family and friends.	Amazing, it was so refreshing and cool to be with people from different country sharing our values and knowledge.	I was always super collaborative. I enjoy this kind of activities a lot because of that, I want to learn from others. There was not a single problem.	More days to get to know each other and more dynamism in between activities.
17/07/2022 15.08.19	I liked everything	The information about fake news	Yes, I improved my knowledge about fake news	Yes, I will use these rooles in my job	I felt very well	There were no problems, I collaborated with the others	Tank you
17/07/2022 15.08.29	I liked the activities because they allowed me to get to know Potter people.	I learnt that the world is full of fake news and even if I am young, I can't recognize them.	Ho imparato diversi nuovi modi per riconoscere le fake news.	Si, i miei genitori non sempre sanno riconoscere le fake news e tendono a credere a diverse notizie che circolano su internet. Quindi posso aiutarli a fare una cermta delle notizie.	È stato molto bello conoscere nuove persone e anche vedere la creatività nello svolgere le varie tematiche assegnate.	lo ho poca creatività, quindi alcune volte non sapevo proporre idee agli altri, però nel mio piccolo mi sono resa disponibile nello scrivere le varie tematiche svolte.	
17/07/2022 15.08.53	Yes, I enjoyed the way the event was structured	I improved my knowledge about fake news and usage of social media	Yes, a lot of information and different points of view were shared between the participants which helped me increase my knowledge on the topic.	Yes. I will apply them on my personal and professional life.	Perfect!	I enjoyed working with the others a lot. I didn't face any problem during the working process.	Thank you for the hospitality and the good vibes!
