## ***INTERNATIONAL INITIATIVES FOR COOPERATION - IIC***

BULGARY

**Which is the impact of the project on participants and on your organisation?  
Please describe feedbacks from realised activities and future perspectives.**

The participants in the international meetings of the project were very satisfied with what they learned during these meetings, they received new information and knowledge related to the topic of the project and had the opportunity to exchange experience with their colleagues from other countries. In the future, we plan to continue to enable more people to improve their communication skills with the project's target group.

**Which do you think will be the best instruments and practices for reinforcing the European and international cooperation about the themes of the project?**

Initiate events and events to reach the needs of the project's target group. Investing in more training to improve the skills of social workers, psychologists and mediators working with the representatives of the project's target group and giving them more opportunities to exchange experiences with colleagues from other countries. Overall investment in human resource capacity building.

**Please describe channels and instruments you used for disseminating project contents and results in your community**

For dissemination of the results of the project we use the social channels of IIC: our webpage and our Facebook page.
